

## Using EOCs for Epidemic Response: Virtual Public Health Emergency Management Training

### Post-training survey

Name (optional):

1. Please indicate one response to each of the following questions:

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
I have a clear understanding of the principles of Public Health Emergency Management (PHEM)					
I am confident in my ability to work within an Incident Management System (IMS)					
I am confident in my ability to manage others within an IMS system					
I can accurately describe ways in which IMS functions apply to epidemic response efforts					
I am confident in my ability to engage stakeholders from outside my institution for coordinated response efforts					
I know how to develop and implement well-designed and effective drills and exercises to support PHEM					
I am capable of training others in basic principles of PHEM, including application of IMS					

2. Please indicate one response to the following questions:

	Strongly agree	Agree	Neither agree nor disagree	Disagree	Strongly disagree
The content of this training was relevant to my day-to-day role					
The examples and scenarios provided in the training was relevant to my professional context					
The content of this training was appropriate to my skill level and experience					
Participation in this training will allow me to be more effective in my role					

The balance between self-directed (asynchronous) and live (synchronous) content was appropriate					
The facilitators were knowledgeable and respectful					
I would recommend this training course to a colleague					

3. Please use this space to elaborate on any of the responses above:

4. Please provide any other feedback here:

Please send completed quiz to your facilitator.

**Thank you very much for your participation!**
